

## At Quality Steel, we still do business person to person

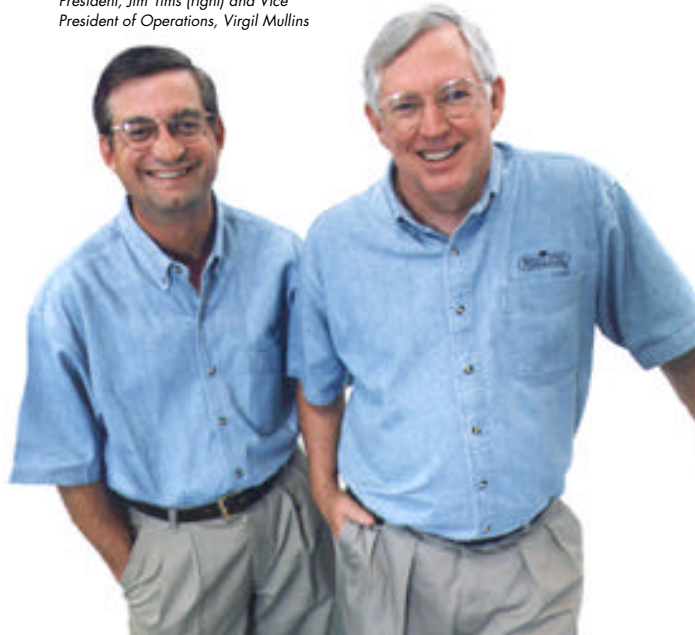

In today's world of faxes, modems, and e-mail, a smile and a handshake still mean a lot. And at Quality Steel Corporation, that's exactly what you get. Your orders and inquiries are handled by people, not computers. Your tanks are delivered by some of the greatest drivers in the business who go the extra mile to keep you supplied. And perhaps most important of all, nobody at Quality Steel ever forgets to say "thank you".

National Sales Manager, Bob Rhett (left) and General Manager, Paul Bobitt

We want to make it easy to do business with us. You're the reason we're in business, and we never lose sight of that. Our philosophy is simple - we combine a superior product with an unmatched level of personal service. That's what sets Quality Steel apart from the rest.

President, Jim Tims (right) and Vice President of Operations, Virgil Mullins
